

Homesteader External

100% Australian made

Low maintenance

Competitive price

The “Homesteader” is step-tapered design. Made of two structural aluminium 6351-T6 sections. It is a strong, practical and economical.

- Bottom section 100mm OD x 3 mm
- Top section 80mmOD x 2mm
- Two sections joined together by cast aluminum reducer overlapping inside for 1m It makes the pole stronger than comparable pole off one section
 - The top finial –solid cast aluminium (not plastic deteriorating because UV and prone to mechanical damaging)
 - Durable marine grade 15-20 microns satin natural anodised finish the best protection for aluminium as a standard
 - External halyard flag clips, parrel ball
 - Stainless steel horn cleat
 - Galvanized steel spigot 1.6m with plastic bushes is included in the price
