

5 Homesteader
Homesteader Internal

100% Australian made

Low maintenance

Competitive price

The “Homesteader” is step-tapered design. Made of two structural aluminium 6351-T6 sections it has anti-tamper hatch. It is a strong, practical and economical.

- Bottom section 100mm OD x 3 mm
- Top section 80mmOD x 2 mm
- Two sections joined together by cast aluminum reducer. The top overlapping inside for 1m (combination of these 3 points make it extra strong) stronger than a comparable pole in one section
- The top finial –solid cast aluminum (not plastic deteriorating because UV and prone to mechanical damaging)
- Durable marine grade 15-20 microns satin natural anodised finish as a standard .It is the best protection for aluminium
- Ronstan stainless steel pulley
- Internal halyard, 5mm polyester rope with flag clips and parrel ball
- Jam cleat is installed inside the pole
- Lockable sleeve hatch cover , secures the opening
- Flag counter weight allowing to lower the flag and makes the flag unreachable
- The galvanized 1.6m steel spigot with plastic bushes as a standard
