

The practical and economical (value for a dollar) solution

**Lawnmate range Model 651060 M** –6m flagpole  
modified - internal halyard system

The same what 651060 but with an internal halyard secured by a temper proof sliding sleeve

This design can be used as a normal flagpole or a banner pole for the size approx 2.5 x 0.8 m hoisted vertically

- High tensile tube 6351-T6 aluminium **80mm OD x 2mm** straight [not spin tapered]
- Durable 15-20 microns anodised finished -marine grade included in the price
- The top finial –solid cast aluminium
- 300 mm Internal sleeve reinforcement at the opening level
- Jam cleat inside the tube opposite the opening
- sliding sleeve cover secured by torx bolt the most effective tamper proof solution
- Ronstan single pulley at the top
- 5 mm internal halyard , flag clips, parrel beads
- Flag counter weight necklace
- 1.5m galvanized straight steel spigot with plastic bushes (sufficient for this pole size )
