Competitive price

Straight external halyard

This unique flagpole pulls apart into 3 two-metre sections. It comes in an anodised finish complete with halyard and cleat. The bottom section of the pole is planted into the ground socket (included in the package). The pole is supplied in a pre-packaged cardboard box complete with instructions. It could be also mounted on the spigot, secured in the concrete foundation

Features

- Solid mushroom shape aluminium finial, not plastic or thin gauge spun aluminium
- High tensile aluminium drawn extrusion
- Low maintenance. No fittings inside the pole
- Polyester halyard with 2 flag clips belayed to an aluminium cleat
- The bottom section of the pole is planted into the ground socket (included in the package).
- For model 650060 Galvanized steel support spigot half of which goes into the pole and the other half into the concrete can be used
